# Technical Training Program in Interpreting

Program Description
- The Interpreting Technical Training Program is an introductory program in the field of Interpreting. It serves as an introductory to the theoretical and practical principles of different types and modalities of interpreting and their application in today's world. This program aims to develop a junior interpreter's necessary skills and competencies. The Program is organized into 9 modules of 5 weeks each, and it will be delivered virtually through the UCR Global platform.

Admission requirements
- C+ proficiency in English oral and listening skills.
- Access to a computer and stable internet connection.
- Intermediate computer skills. Use of recording and listening programs.
- Availability to attend synchronous and asynchronous classes.
